

# Okular

The multiplatform document viewer

# Who is this?

Albert Astals Cid (KDE since 2003)

KPDF/Okular

Releases of KDE Gear

kdegames

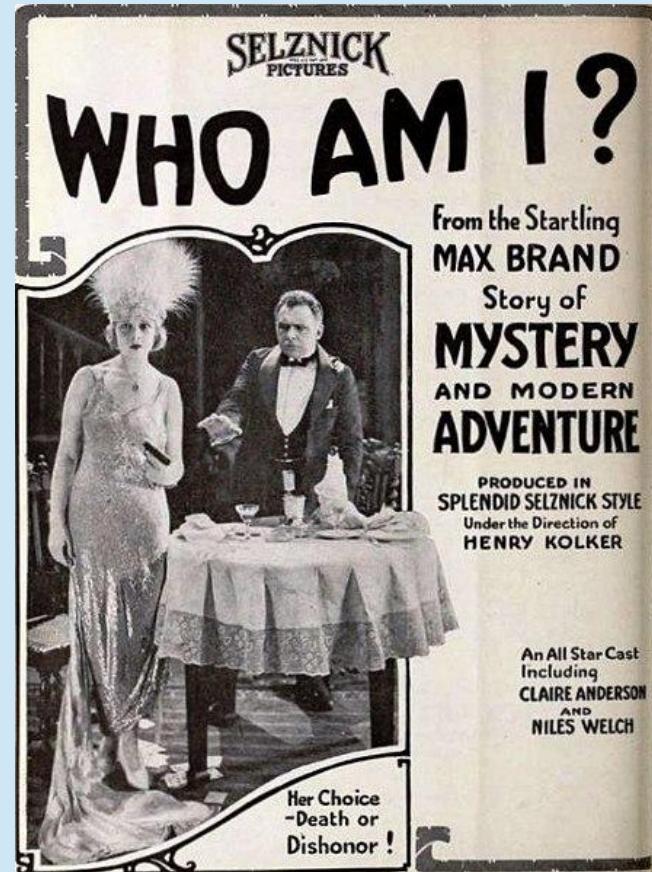

kdeedu

Ex-board member

Translations coordinator

A bit of everything :)

[aacid@kde.org](mailto:aacid@kde.org) @tsdgeos

# What is Okular?

- A multiformat document viewer
- A multiplatform document viewer
- Translated to more than 40 languages
- First ever eco-certified software by Blue Angel

# What Okular is NOT?

- A document editor

# Formats

- PDF
- comicbook, djvu, dvi, epub, fax, fictionbook, imágenes, markdown, mobipocket, postscript, txt, xps

# Multiplatform

- Linux (& \*BSD & friends)
  - Plasma Mobile
- Windows
- OSX
- Android

# Features

- Digital Signature
- Annotations
- Forms
- Miniatures
- Table of contents
- Links
- Text Search and Filtering
- Table Copy mode

# Features (II)

- Page rotation (view only)
- Inverse search (LaTeX)
- Embedded Files
- Multimedia (videos and sounds)
- Different View Modes (Continuous, N pages)
- More! bookmarks, presentation mode, ...

# Future work

- Better digital signature database handling
- Do not convert PDF files to PS for printing
- More multi-threading
- Better JavaScript support in PDF files
- More complex views (dragging tabs, side by side, etc)
- PDF Link preview

# Future work (II)

- More love to non-Linux platforms
- Factur-X/ZUGFeRD support
- The 500 feature requests in bugs.kde.org :D
- CREATE TIME FOR ME! (...or contribute...)

# How do I try it?

- Flathub
- In your Linux distribution (\*BSD & amigos)
- Windows Store (and chocolatey?)
- KDE F-Droid repository
- <https://cdn.kde.org/ci-builds/graphics/okular/master/>
